Comments about student effort

(INTA 2120) I think I could've put more effort into my presentation and class discussion.

(INTA 2120) less effort than expected

(INTA 2120) Expected

(INTA 2120) The expected and expended effort was appropriate course

(INTA 2120) I believe I could have exerted a bit more effort to be the most successful in this course.

(INTA 2120) THANK YOU FOR NO HOMEWORK

(INTA 2120) definitely have to read a lot, but it's all very applicable and interesting

(INTA 2120) Yes

(INTA 2120) I spent a lot of time on the projects and cooperated with my classmate.

Course best aspect

(INTA 2120) Professor Han was very engaging and the class activities were fun.

(INTA 2120) Honestly - I loved the debate!

(INTA 2120) the collaboration and discussion components, no final, and great guest lectures; i rly learned SO much

(INTA 2120) The in-class discussions on the topics presented

(INTA 2120) Lots of discussions

(INTA 2120) The in-class discussions and the debates

(INTA 2120) The discussions about utility and other philosophical terms in relation to international security

(INTA 2120) The best aspect of the course were the lectures. The presentations and debates were also effective in that they broke up the regular rhythm of the class and introduced new ideas.

(INTA 2120) class discussions/the informal debates

(INTA 2120) I really liked the in class discussions. We were not always lectured at which was great. I liked a slight back and forth with the professor.

(INTA 2120) Class debates were the best

(INTA 2120) i enjoyed the guest lectures grraetly and how interactive and interesting he made the discussions

(INTA 2120) Lectures and the class debates

(INTA 2120) Quizzes were good and hard

(INTA 2120) The discussion

Course improvements

(INTA 2120) I would've like more class activities than pure discussion towards the end of the semester.

(INTA 2120) Honestly, maybe reword the way you write questions for the quizzes

(INTA 2120) i don't know how much I learned from the debate; i would often zone out and i feel like the questions weren't tooooo thought provoking for audiences; they were also kind of one-sided.

(INTA 2120) Release the in-class powerpoints or other class notes. It can be difficult to be engaging in in-class discussion and taking extensive notes. Additionally, the quizzes relied on the in-class presentations more so than the readings, and students should not be punished for wanting to go back and look over the presented class content.

(INTA 2120) More time spent on certain concepts

(INTA 2120) Maybe making the readings shorter will help students engage a little more in class and discussions. I struggled with reading the articles because they were very long and I simply did not have the extra time because of my other classes.

(INTA 2120) A better spread of quizzes and evaluative assignments to better reflect investment in the course.

(INTA 2120) The first midterm was very difficult. I think the issues with it were addressed well in the second midterm though. Allowing for partial credit and not requiring students to remember specific quotes was much more beneficial in facilitating broad learning instead of memorization.

(INTA 2120) Less readings. please

(INTA 2120) Post slides

(INTA 2120) I think providing a bit more structure in regards to how the presentations were offered and post slides would be nice. i know he said that he fgelt like posting slides removes the drive to attend class but i think that making attendance mandatory fixes that issue

(INTA 2120) na

(INTA 2120) Idk really

(INTA 2120) Nothing

Instructor greatest strength

(INTA 2120) Professor Han is very kind and understanding.

(INTA 2120) Positivity!

(INTA 2120) his care for students and thought provoking discussion manner and asking us Qs

(INTA 2120) His enthusiasm for teaching

(INTA 2120) Lots of prepared material

(INTA 2120) He is very passionate about the topics and focused his lectures on how we could see the theory through case studies. Most lectures were based on reading so if you missed a class you could catch up by making sure you went through the articles of the day.

(INTA 2120) Their interest and knowledge about the subject area .

(INTA 2120) Very willing to create a discussion-based environment and open to hearing students' opinions. Very kind and enjoyable!!

(INTA 2120) He had really good slide shows and spoke clearly.

(INTA 2120) Very knowledgeable, and wanted us to participate as much as we could

(INTA 2120) very interested in what the students have to say

(INTA 2120) Enthusiasm

(INTA 2120) His energy

Instructor improvements

(INTA 2120) Not sure.

(INTA 2120) better feedback on where points are "not earned"

(INTA 2120) Improving his clarity in the syllabus and on assignments for his expectations

(INTA 2120) Releasing lecture slides on canvas

(INTA 2120) Consider structuring the weeks with one day for full theory and concept descriptions and one day for case studies and discussions. You could cover a similar amount of work and students would engage more with the theory and its applications.

(INTA 2120) Better reflection of investment into the class through assignments given.

(INTA 2120) More group talk

(INTA 2120) Post slides and also give feedback on assignments earlier

(INTA 2120) na

(INTA 2120) Nothing
